

**Pre-School
Mission
Statement**

Our goal is to nurture young children and provide a value oriented positive introduction to formal education.

Philosophy

We believe a child's first school experience is important because it lays the foundation for all future educational experiences. We believe that each child is a unique gift from God. Our approach involves the whole child and recognizes that each child develops at their own pace. We provide an environment that is safe, loving and rich in opportunities for learning and growth through age-appropriate, hands-on activities.
